ABOUT ME

An Electrical Electronic Engineering student whose goal is to learn in every activity I engage in. with proficiency in python. programming language and web development (UI/UX), beginner level in Automation Engineering, Matlab, proficient also in Photoshop and Coreldraw to assemble: together images, typography, or motion graphics to create a piece of design.

EDUCATION

ARAROMI ILOGBO SENIOR SECONDARY SCHOOL

2011-2017 SENIOR SCHOOL CERTIFICATE EXAMINATION

OGUN STATE INSTITUTE OF TECHNOLOGY OGUN STATE

2019-2021 ORDINARY NATIONAL DIPLOMA

PROJECT

PROGRAMMING TICTACTOE USING PYGAME

- Programming a human to play against an algorithm.
- Takes an input and iterate against already set results
- the algorithm is improved to win.

DESIGN OF SINGLE STAGE COMMON EMMITER AMPLIFIER

- Design the amplifier with a specific gain of 200
- Applied the appropriate biasing circuit for perfect/faithful amplification. .
- Applied negative feedback for maximum gain stability

CERTIFICATES

WEB DEVELOPMENT WITH PYTHON AND JAVASCRIPT

Edx | HavardX CS50

IN VIEW

HTML5 DEVELOPMENTAL FUNDAMENTAL

Digital Nigeria

Nov 2021

IT ESSENTIALS : PC HARDWARE AND SOFTWARE
